

Coppermill Primary School

EQUAL OPPORTUNITIES POLICY STATEMENT

At Coppermill Primary School, the Staff and Governors are committed to providing Equal Opportunities and meeting the educational needs of every child in the school, considering all aspects of race, culture, gender, sexuality and disability. We believe that everyone is entitled to a quality of life which will enable them to achieve their full potential.

Not all people are treated as equals. Many individuals and groups within our community face disadvantage and discrimination. This prevents them from participating in, and benefiting equally from educational opportunities. We believe this impoverishes the quality of life for all.

Our commitment to providing equal opportunities for all our children is based on justice, and on the legal duty placed on both the Educational Authority and on individuals. We share the responsibility for actively opposing and striving to remove inequality and discrimination.
